

Medicine of Diving | 2017

Divi Flamingo Beach Resort · Bonaire, Dutch Caribbean
Travel Dates: Jan 28-Feb 4, 2017 / Course Dates: Jan 29- Feb 3, 2017

Course Description & Objectives

With the ever-increasing popularity of recreational diving, there are greater demands on the medical community to provide medical clearance to divers and to understand the needs of the injured diver.

Medical Seminars, Inc. developed *Medicine of Diving* to educate physicians who serve as medical consultants to divers in their local communities. This course is designed to empower physicians to make informed recommendations on fitness to dive and to recognize and manage diving injuries.

Upon completion of *Medicine of Diving*, participants should be able to:

- Make a medical assessment of fitness to dive;
- Discuss medical concerns for diving in special environments;
- Recognize & treat unique diving accidents in emergency situations;
- Manage diving injuries at remote locations; and
- Gain knowledge to serve as a medical consultant to local dive groups.

Who Should Attend

This clinical course in diving medicine is designed for physicians of all specialties who have an interest in undersea medicine.

Faculty

Thomas M. Bozzuto, DO, UHM/ABEM, CWS
Medical Director
Phoebe Wound Care & Hyperbaric Center
Albany, Georgia

Francois Burman, Pr. Eng, Int PE (SA), BSc (Eng), MSc (MedSc), MSAIME, FSAIW
CEO of DAN Southern Africa, Midrand, South Africa
Director of Diving & Hyperbaric Safety at DAN America,
Durham, NC

Robert W. Sanders, MD
Crew Health and Safety Flight Surgeon
Medical Director, NASA Neutral Buoyancy Laboratory
Assistant Professor, UTMB Dept of Preventive Medicine and
Community Health Houston, Texas.

Paul J. Sheffield, PhD, CAsP, CHT
President and CME Program Director
International ATMO, Inc
San Antonio, Texas

Gary N. Toups, MD, UHM(ABPM)
Fellow in Aerospace Medicine
Mayo Clinic,
Rochester, MN

Dave Wakely, FCEM(UK), FRCS(Eng), MBBS, BSc, Dip IMC, EDTC-II
Consultant in Emergency and Hyperbaric Medicine
King Edward VII Memorial Hospital
Bermuda

Eugene R. Worth, MD, M.Ed., UHM/ABPM, FABA
Medical Director, Hyperbaric Medicine
Dixie Regional Medical Center
St George, Utah

Topics

DAY 1 / Sunday, January 29, 2017

- Introduction (P Sheffield, PhD)
- Marine Injuries (D Wakely, MBBS)
- Treatment of Seasickness (T Bozzuto, DO)
- Women's Health Issues and Scuba Diving (E Worth, MD)
- Practical Diving Safety (P Sheffield, PhD)

DAY 2 / Monday, January 30, 2017

- Dive Computers and the Magic Bracelet Syndrome (G Toups, MD)
- Altitude Related DCS in Military and Civilian Settings (G Toups, MD)
- Emergency Medicine is Out There: Hyperbaric Medical Support at NASA Neutral Buoyancy Lab (R Sanders, MD)
- Diving in Space: Medical Concerns of the Astronaut "Diving" in Space (R Sanders, MD)

DAY 3 / Tuesday, January 31, 2017

- Medical Assessment of Divers and Dive Instructors (E Worth, MD)
- Fitness to Dive: Cases and Questions (D Wakely, MBBS)
- Differential Diagnosis of the Dizzy Diver (T Bozzuto, DO)
- ADCI New Diving Medical Standards (R Sanders, MD)

DAY 4 / Wednesday, February 1, 2017

- Can You Handle the Pressure: Basic Decompression Theory (R Sanders, MD)
- Rationale for Hyperbaric Oxygen Therapy for Treatment of Problem Wounds (P Sheffield, PhD)
- Patient Evaluation & Selection for HBO2 (T Bozzuto, DO)
- Side Effects and Contraindications of HBO2 (T Bozzuto, DO)

DAY 5 / Thursday, February 2, 2017

- Treatment of DCI at Remote Locations (T Bozzuto, DO)
- A Tale of Two Deaths: Recent Activity in the Dive Industry (R Sanders, MD)
- Assessing the Safety of Diver Recompression Chamber Facilities (F Burman, Pr. Eng.)
- Nitrox has Limits: Oxygen Toxicity is Closer Than You Think! (R Sanders, MD)

DAY 6 / Friday, February 3, 2017

- Self Assessment Exam (P Sheffield, PhD)
- Exam Review/ Critique (Faculty)

Continuing Medical Education

Accreditation Statement: This live activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the Undersea & Hyperbaric Medical Society (UHMS) and Medical Seminars, Inc. The UHMS is accredited by the ACCME to provide continuing medical education for physicians.

Designation Statement: The UHMS designates this live activity for a maximum of **22 AMA PRA Category 1 Credits™**. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Full Disclosure Statement

All faculty members and planners participating in continuing medical education activities sponsored by Medical Seminars Inc. are expected to disclose to the participants any relevant financial relationships with commercial interests. Full disclosure of faculty and planner relevant financial relationships will be made at the activity. This activity has no commercial support.

UHMS Disclaimer

The information provided at this CME activity is for Continuing Medical Education purposes only. The lecture content, statements or opinions expressed however, do not necessarily represent those of the Undersea and Hyperbaric Medical Society (UHMS), its affiliates or its employees.

Medicine of Diving | 2017

Divi Flamingo Beach Resort · Bonaire, Dutch Caribbean
Travel Dates: Jan 28-Feb 4, 2017 / Course Dates: Jan 29- Feb 3, 2017
Brochure & Registration Form

Accommodations & Diving Package

Medical Seminars, Inc. has arranged an accommodations and diving package for Medicine of Diving participants at the Divi Flamingo Beach Resort in Bonaire, Dutch Caribbean. The Medicine of Diving academic program will be held on property at the Divi Flamingo Beach Resort. **The 7-night accommodations package is arranged for participants arriving Saturday January 28, and departing Saturday February 4, 2017. Due to some of the airline schedules you may be required to purchase an extra night at the hotel.**

The diving program is coordinated with our academic program. However, you DO NOT have to participate in the diving program to attend the academic program.

Divi Flamingo Beach Resort has spacious oceanfront and gardenview guestrooms and suites that are decorated in bright, tropical colors. Private balconies overlook the Caribbean Sea and invite guests to relax after a day of diving. Most of the rooms have 2 queen size beds in them. There are a couple of Deluxe rooms with a single King in them. The Studio rooms have 2 queens and a sofa sleeper.

Travel & Airlines

Participants are responsible for organizing their own travel and should plan on arriving in Bonaire Saturday, January 28 and departing Saturday, February 4, 2017

You may contact your travel agent or book online. THESE FLIGHTS SELL OUT QUICKLY. Please book as soon as possible.

Scuba Diving at Bonaire

Bonaire is one of the world's top diving destinations. With over 80 dive sites, there is an abundance of sea life including more than 500 species of fish and 120 kinds of coral on some of the world's best preserved reefs.

Divi Flamingo Beach Resort offers guests an amazing underwater adventure with Divi Dive Bonaire- a PADI five-star dive resort located on the property. Dive Bonaire conveniently provides five custom dive boats, guest gear storage, fully equipped dive shop, and an experienced dive crew with over ten years experience diving in Bonaire.

Divi Dive Bonaire is the island's oldest and best-known dive operator, operating what many call the most convenient dive experience in Bonaire. With the Calabas Reef just 20 yards in front on the hotel and 24 hour access to tanks, diving with Divi is the easiest dive vacation you will ever take.

Diving conditions in Bonaire include no strong currents, no big seas and short boat rides- keeping your topside time comfortable- while good visibility, dense coral growth and a multitude of brightly colored reef fish allow you to enjoy our underwater wonderland.

Lockers

Participants are issued a locker to store your dive gear. Lockers are issued to 2 divers per locker. You may purchase a lock in the dive shop or you may bring your own.

Medical Seminar's SCUBA Diving Disclaimer

You are responsible for your own diving safety and you will be asked to sign a form stating you are medically and physically fit to dive. Medical Seminars, Inc. assumes no responsibility or liability for the diving activities.

****ALL TRAVELERS MUST HAVE A VALID PASSPORT****
